The iGovPhil Project officially adopts the Web Content Accessibility Guidelines (WCAG 2.0) as the accessibility standard for all its related web development and services. WCAG 2.0 is also an international standard, ISO 40500. This certifies it as a stable and referenceable technical standard.

WCAG 2.0 contains 12 guidelines organized under 4 principles: Perceivable, Operable, Understandable, and Robust (POUR for short). There are testable success criteria for each guideline. Compliance to these criteria is measured in three levels: A, AA, or AAA. A guide to understanding and implementing Web Content Accessibility Guidelines 2.0 is available at: https://www.w3.org/TR/UNDERSTANDING-WCAG20/

All iGovPhil Project services and content are currently moving towards WCAG Level A compliance. Work is being done to make the system fully compliant with this level.

Accessibility Features

Shortcut Keys Combination Activation Combination keys used for each browser.

Chrome for Linux press (Alt+Shift+shortcut_key) Chrome for Windows press (Alt+shortcut_key) For Firefox press (Alt+Shift+shortcut_key) For Internet Explorer press (Alt+Shift+shortcut_key) then press (enter) On Mac OS press (Ctrl+Opt+shortcut_key)

Accessibility Statement (Combination + 0): Statement page that will show the available accessibility keys. Home Page (Combination + H): Accessibility key for redirecting to homepage. Main Content (Combination + R): Shortcut for viewing the content section of the current page. FAQ (Combination + Q): Shortcut for FAQ page. Contact (Combination + C): Shortcut for contact page or form inquiries. Feedback (Combination + K): Shortcut for feedback page. Site Map (Combination + M): Shortcut for site map (footer agency) section of the page. Search (Combination + S): Shortcut for search page.

Product Certification

Product Certification Schemes

Part of the Bureau of Philippine Standards' (BPS) mandate, as provided in the Consumer Act of the Philippines, is to protect consumers against hazards to health and safety as well as to assure the public of the consistency of standardized products in the market. To carry out this duty, the Bureau provides for the standardization and certification of products, both locally manufactured and imported, giving the consumers access to quality and safe products conforming to the relevant Philippine National Standards (PNS).

Currently, the BPS implements two (2) Mandatory Product Certification Schemes: the Philippine Standard (PS) Quality and/or Safety Certification Mark Licensing Scheme and the Import Commodity Clearance (ICC) Certification Scheme. Products covered by the mandatory certification, whether locally manufactured or imported, are not allowed to be distributed in the Philippine market without the necessary PS or ICC marks.

The PS Quality and/or Safety Certification Mark License is granted to either local or foreign manufacturer whose factory and product have successfully complied with the requirements of the PNS ISO 9001 and the relevant product standard/s, respectively. Meanwhile, the ICC Certificate is issued to an importer whose imported products have shown conformance to relevant PNS through inspection and product testing by the BPS Testing Laboratory or BPS-recognized testing laboratory.

The PS Mark and ICC Sticker affixed to the products serve as the consumer's assurance that the products they purchase are certified by the BPS.

At present, there are eighty-seven (87) products and systems covered under the BPS' Mandatory Product Certification Schemes. They are classified into three (3) major product groups, namely, Electrical and Electronic Products, Mechanical/Building & Construction Materials, and Chemical & Other Consumer Products and Systems.
