List of controlled goods

List of controlled goods

Find out which household products are classified as controlled goods and what safety standards they must meet before they can be sold in Singapore.

Last updated on 23 June 2026

33 Categories of Controlled Goods

The 33 categories of Controlled Goods (CGs) under the Consumer Protection (Safety Requirements) Regulations (CPSR) are tiered into Low Risk, Medium Risk, and High Risk CGs that have different conformity assessment approaches.

For registration of low risk CGs, the Registered Supplier will have to submit a Supplier’s Declaration of Conformity (SDoC) to the Consumer Product Safety Office. For medium and high risk CGs, a Certificate of Conformity (CoC) issued by a designated Conformity Assessment Body (visit the resources page to download the list of Conformity Assessment Bodies) is required for registration of the CG. Click to find out more about registering CGs.

Suppliers must first apply to be a Registered Supplier before supplying these CGs. Click to find out more on how to apply to be a Registered Supplier.

For the full requirements for CGs (including additional requirements on top of the safety standards stated in the tables below), please refer to the Consumer Protection (Safety Requirmeents) Regulations Information Booklet, listed on the resources page.

The 33 categories of Controlled Goods under CPSR are:

Low Risk CGs

Low risk CGs and their applicable test standards

| Controlled Goods | Definitions | Minimum Edition of Safety Standard

| Air cooler

| Air cooler, which are electrical appliances intended for household use to agitate the air and equipped to use water as a cooling medium, with rated voltage of not more than 250 VAC. | IEC 60335-2-98: 2002 (Ed.2.0)

| Fuse (≤13 amperes) for use in a plug

| Fuses (13-amp or less) for use in a 13-amp plug, which are devices that, by the fusion of one or more of their specially designed and proportioned components, open the circuit in which they are inserted and break the current when it exceeds a given value for a sufficient time. | SS 167: 1977

| Room air-conditioner

| Room air-conditioners, which are electrical appliances intended for household use and designed as self-contained units for mounting on a window or through a wall to provide conditioned air to an enclosed area, with rated voltage of not more than 250 VAC. | IEC 60335-2-40: 2002 (Ed.4.0)

| Table lamp/ standing lamp

| An electrical portable general-purpose luminaire intended for household use with supply voltage of not more than 250 VAC. | IEC 60598-2-4: 2017 (Ed.3.0)

Medium Risk CGs

Medium Risk CGs and their applicable test standards

| Controlled Goods | Definitions | Minimum Edition of Safety Standard(s)

| AC Adaptors

| A device with rated voltage of not more than 250 VAC and designed to supply AC or DC power for applications such as computers, telecommunication equipment, home entertainment equipment or toys. | Applicable for electrical appliances IEC 61558-2-6:2021 (Ed.3.0) or IEC 61558-2-16:2021 (Ed.2.0)

Applicable for electronic appliances IEC 60065:2014 (Ed.8.0) or IEC 62368-1:2018 (Ed.3.0)

Applicable for computer / telephonic appliances IEC 62368-1:2018 (Ed.3.0) or IEC 60950-1:2005 + A1:2009 + A2:2013 (Ed.2.2)

Applicable for shavers IEC 60335-2-8:2012 + A1:2015 + A2:2018 (Ed.6.2)

Applicable for battery chargers IEC 60335-2-29:2016 + A1:2019 (Ed.5.1)

Applicable for LED lightings IEC 61347-2-13:2014 + A1:2016 (Ed.2.1)

Applicable for table/standing lamps IEC 60598-2-4:2017 (Ed.3.0)

Applicable for breast pump IEC 60601-1:2005 + A1:2012 + A2:2020 (Ed.3.2)

| Audio and video products

| Audio and video products, which are electronic devices for home entertainment designed to be fed from the supply mains and intended for reception, generation, recording or reproduction, respectively of audio, video and associated signals, with rated voltage of not more than 250 VAC. | IEC 60065:2014 (Ed.8.0) or IEC 62368-1:2018 (Ed.3.0)

| Coffee maker, slow cooker, steamboat and similar appliances

| Coffee makers, slow cookers, steamboats and similar appliances, which are electrical appliances intended for household use to heat liquids for the purpose of food or beverages preparation, with rated voltage of not more than 250 VAC. | IEC 60335-2-15:2012 + A1:2016 + A2:2018 (Ed.6.2)

| Decorative lighting chain

| Decorative lighting chains, which are electrical lightning chains intended for household use and fitted with a series or parallel or combination of series or parallel connected light emitting devices, with rated voltage of not more than 250 VAC. | Rope lights IEC 60598-2-21:2014 (Ed.1.0)

Decorative lighting chain (excluding rope lights) IEC 60598-2-20:2022 (Ed.5.0)

| Fans

| Fans, limited to ceiling, table, standing and wall fans, which are electrical appliances for circulating the air in its vicinity and intended for household use, with rated voltage of not more than 250 VAC. | Table, standing or wall fan SS 655: 2020 or IEC 60335-2-80:2015 (Ed. 3.0)

Ceiling or cycle fan IEC 60335-2-80:2015 + SS 655:2020 (Annex ZA only) or SS 655:2020 or IEC 60335-2-80:2015 + SS 360:1992 (sub-clauses 5.7 & 5.8 only) (for renewal only)

| Gas canister

| A non-refillable metallic container up to 1.4 litres capacity filled with liquefied petroleum gases intended for household use with a portable gas cooker. | SS 400:2023

| Hair care appliances

| Hair care appliances, limited to hair dryers, hair curlers, hair straighteners and hair stylers, which are electrical hand-held appliances intended for household use to dry or care for human hair, with rated voltage of not more than 250 VAC. | IEC 60335-2-23:2016 + A1:2019 (Ed. 6.1)

| Home computer system

| Home computer system (inclusive of monitor, printer, speaker and other mains operated accessories), which is a microcomputer and its associated accessories, intended for household use, with rated voltage of not more than 250 VAC. | IEC 62368-1:2018 (Ed. 3.0) or IEC 60950-1:2005 + A1:2009 + A2:2013 (Ed. 2.2)

| Iron

| Irons, which are electrical hand-held appliances intended for household use, with a heated soleplate for smoothing or pressing fabric, including those with a separate water reservoir or boiler having a capacity not exceeding 5 litres, with rated voltage of not more than 250 VAC. | IEC 60335-2-3:2012 + A1:2015 (Ed. 6.1)

| Isolating transformer for downlight fitting

| Isolating transformers for downlight fitting, which are isolating transformers intended for household electrical installation with input and output windings that are electrically separated to limit hazards due to accidental simultaneous contact with earth and live parts or metal parts that may become live in the event of an insulation failure. | Magnetic type IEC 61558-2-6:2021 (Ed. 3.0)

Electronic type IEC 61347-2-2:2011 (Ed. 2.0)

| Kitchen machines

| Kitchen machines, including mixers, blenders and mincers, which are electrical appliances intended for household use to prepare food or beverages, with rated voltage of not more than 250 VAC. | IEC 60335-2-14:2016 + A1:2019 (Ed. 6.1)

| Lamp control gears

| Lamp control gears, which are electrical devices intended for household electrical installations that limit the current of the lamp or supply constant current or constant voltage power to LED lighting. | Magnetic type IEC 61347-2-8:2000 + A1:2006 (Ed. 1.1)

Electronic type IEC 61347-2-3:2011 + A1:2016 (Ed. 2.1)

For LED driver IEC 61347-2-13:2014 + A1:2016 (Ed. 2.1)

| Liquid heating appliances

| Liquid heating appliances, limited to kettles, air pots and hot water dispensers, which are electrical appliances intended for household use to heat liquids for consumption that have a rated capacity not exceeding 10 litres, with rated voltage of not more than 250 VAC. | Storage liquid heating appliance (Heats water below boiling temperature) IEC 60335-2-21:2012 + A1:2018 (Ed. 6.1)

Instantaneous liquid heating appliance (Heats water below boiling temperature) IEC 60335-2-35:2012 + A1:2016 + A2:2020 (Ed. 5.2)

Liquid heating appliance (Heats water to boiling temperature) IEC 60335-2-15:2012 + A1:2016 + A2:2018 (Ed. 6.2)

| Microwave oven

| Microwave ovens, which are electrical appliances intended for household use that use high-frequency electromagnetic waves for heating food or beverages, with rated voltage of not more than 250 VAC. | IEC 60335-2-25:2020 (Ed.7.0)

| Multi-way Adaptor

| Multi-way adaptors, which are intended for household use, have more than one set of socket contacts, and which may or may not be of the same type or rating as the plug pin portion. | SS 145-3: 2020 (applicable for conventional Multi-way Adaptors and Multi-way Adaptors incorporating USB Port(s) and/or electronic devices)

| Portable socket-outlet

| 3-pin portable socket-outlets, including portable cable reels, which are electrical accessories intended for household use that have at least a set of 13-amp shuttered socket-outlets with flexible cords, and which can be easily moved from one place to another while connected to rated voltage supply of not more than 250 VAC. | 3-pin portable socket-outlet SS 145-2:2018

Portable cable reel SS 307:1996

Power track’s socket outlet tap-off unit - Valid till 30 June 2026: SS 241:1996 + SS 145-2:2018 (seq. 1, 2, 3 only) - Effective from 1 July 2026: SS 241:1996 + SS 145-2:2018

Power track’s socket outlet tap-off unit with USB port(s) and/or electronic device(s) SS 241:1996 + SS 145-2:2018

| Residual Current Circuit Breaker (RCCB)

| Residual current circuit breaker (RCCB), which is an electrical device intended for household fixed-electrical installation with sensitivity of 30 mA intended to protect persons against indirect contact, the exposed conductive parts of the installation being connected to an appropriate earth electrode. | SS 97:2016

| Rice cooker

| Rice cookers, which are electrical appliances intended for household use to cook rice, with rated voltage of not more than 250 VAC. | IEC 60335-2-15:2012 + A1:2016 + A2:2018 (Ed.6.2)

| Stationary cooking appliances

| Stationary cooking appliances, limited to cooking ranges, hobs and ovens, which are electrical stationary appliances intended for household use for cooking, with rated voltage of not more than 250 VAC for single-phase and 480 VAC for three-phase. | IEC 60335-2-6:2014 + A1:2018 (Ed.6.1)

| Toaster, grill, roaster, hot plate, deep fryer, wok and similar appliances

| Toasters, grills, roasters, hot plates, deep fryers and similar appliances, which are electrical appliances intended for household use that use heated medium such as air and cooking oil for food preparation, with rated voltage of not more than 250 VAC. | Toaster, hot plate (including induction type), grill, oven, and similar appliances IEC 60335-2-9:2019 (Ed.7.0)

Deep fryer, electric wok, and similar appliances IEC 60335-2-13:2021 (Ed.7.0)

Outdoor electric barbeque grill IEC 60335-2-78:2021 (Ed.3.0)

| Vacuum cleaner

The image in this table cell has been replaced. It was originally referencing " /images/about-us/33-categories-controlled-goods/vacuum-cleaner.png" | Vacuum cleaners, which are electrical portable appliances intended for household use to remove dirt or dust, with supply voltage of not more than 250 VAC. | IEC 60335-2-2:2019 (Ed.7.0)

| Washing machine

| Washing machines, which are electrical appliances intended for household use to wash clothes and textiles, with rated voltage of not more than 250 VAC. | IEC 60335-2-7:2019 (Ed.8.0)

| 3-pin main plugs

| 3-pin mains plugs, limited to 13-amp rectangular types and 15-amp round types, which are portable devices that have rectangular or cylindrical projecting pins designed to engage with the contacts of a corresponding socket-outlet. 3-pin mains plugs also incorporate means for the electrical connection and the mechanical retention of a suitable flexible cord. | 13-amp plug with rectangular plug pins SS 145-1:2019

15-amp plug with round plug pins SS 472:1999(2020) + E1:2001/A1:2020

High Risk CGs

High risk CGs and their applicable test standards

| Controlled Goods | Definitions | Minimum Edition of Safety Standard(s)

| Components of the Liquefied Petroleum Gas system

| Hose Hose, namely a hose intended for household use in liquefied petroleum gas vapour phase and liquefied petroleum gas or air appliances not exceeding 5 KPa (50 mbar) operating pressure.

Regulator Regulator, which is a non-adjustable device intended for household use that maintains the outlet pressure constant at a nominal value up to and including 50 mbar, independent, within specified limits, of inlet pressure or flow rate.

Valve Valve, which is a device that is made from brass, bronze or aluminium forging, intended for household use with liquefied petroleum gas cylinders, to control the direction and volume of flow of the liquefied petroleum gas. | Hose SS 233: 2013

Regulator SS 281: 1984

Valve SS 294: 1998

| Domestic electric wall switch

| Domestic electric wall switches, which are electrical manually operated general purpose switches for alternating current only, with a rated voltage not exceeding 440 V and a rated current not exceeding 63 A, intended for household fixed-electrical installations. | 13A fused connection units (switched) SS 145-4: 2022

General purpose domestic electric wall switch IEC 60669-1: 2017 (Ed. 4.0)

| Gas cooking appliances

| Gas cooking appliances, limited to built-in, table, free standing and portable gas cookers, which are cooking appliances intended for household use that use gas or liquefied petroleum gas obtained from a non-refillable gas canister up to 1.4 litres as fuel. | Gas Cooker EN 30-1-1:2008 + A3:2013 or

AS/NZS 5263.1.1:2020

Forced-convection gas oven EN 30-1-2:2012

Glass-ceramic gas hob with enclosed covered burner EN 30-1-3:2003 + A1:2006

Gas cooker with automatic burner control system EN 30-1-4:2012 + IEC 60335-2-102:2017 (Ed.2.0)

Portable gas appliance SS 401:2023

| Main socket-outlets

| Mains socket-outlets, which are electrical devices that have 13-amp or 15-amp switched shuttered socket-outlets in a single or multiple arrangement, to engage with the pins of a corresponding plug designed for flush mounting in a suitable box or for surface or panel mounting. | 3-pin 13-amp socket-outlet SS 145-2:2018

3-pin 13-amp socket-outlet with remote-control function TR 116:2023

3-pin 13-amp socket-outlet (cooker control unit) BS 4177:1992 + A1:1993 + A2:1997 + A3:2004 + A4:2007

3-pin 13-amp socket-outlet with RCD BS 7288:2016

3-pin round type 15-amp socket-outlet SS 472:1999(2020) + E1:2001/A1:2020

| Refrigerators

| Refrigerators, which are electrical appliances intended for household use that operate on the vapour compression principle for food storage and preservation, with rated voltage of not more than 250 VAC. | IEC 60335-2-24:2020 (Ed.8.0)

| Water heaters

| Water heaters, limited to instantaneous and storage types, which are electrical appliances intended for household use to heat water below boiling temperature, with rated voltage of not more than 250 VAC. | Instantaneous electric water heater IEC 60335-2-35:2012 + A1:2016 + A2:2020 (Ed.5.2)

Mains pressure electric storage water heater IEC 60335-2-21:2012 + A1:2018 (Ed.6.1)
